

HOW TO HANG YOUR PLEATED CURTAINS

HANGING YOUR PLEATED CURTAINS

ADJUST THE HOOK HEIGHT

When hanging your curtains, you can adjust the height of the hooks slightly if needed to ensure the curtains hang at the ideal height.

HOOK THE CURTAIN ONTO THE RUNNERS

Insert each curtain hook through the eye of a runner on the curtain track.

STEAM OUT ANY CREASES

Use a handheld steamer, or alternatively a steam iron, to remove any remaining creases from the curtain.

ALLOW THE CURTAINS TO SETTLE

Leave the curtains hanging for a few days to allow the fabric to settle and achieve the best result.
